Table i. – Document revision history

Introduction

The default password allows you to access to the administration page of your NF18ACV, however many Internet Service Provider will have implemented their own default username and password

Remember your username and password

If you have changed the username and password, you must remember the words or strings of characters that you have defined.

Important – NetComm Technical Support does not have a record of your personal username and/or password, or Internet Service provider's custom username and password for security reasons.

Initial attempt to log in to the Web interface of the NF18MESH

- 1 Open a web browser (such as Internet Explorer, Google Chrome or Firefox), type following address into the address bar and press enter.

<http://cloudmesh.net> or <http://192.168.20.1>

Enter the following credentials:

Username: admin

Password: <The password printed on the back of the modem>

then click the **Login** button.

NOTE – Some Internet Service Providers use a custom password. If login fails, contact your Internet Service Provider. Use your own password if it is changed.
