Changing the default administration password
(3G18Wn)
Changing the default administration page password

Changing the default password (and username)* allows you to prevent unauthorised access to the administration page of your modem / router / VOIP ATA.

Technical Support are unable to obtain your username and password.

If you forget your administration page login details, you will need to perform a factory reset to restore the default username and password of admin.

This will also clear any stored settings on your modem / router / VOIP ATA.

* - If supported by your model of modem / router.
Changing the default password

This guide will take you through the process of changing the password required to login to the administration page of your modem / router / VOIP ATA.

1. Navigate to http://192.168.20.1 in a web browser using “admin” as both the username and password.
2. Select Management from the Administration menu.

3. Under the Administrator Settings enter "admin" into the Account field.
4. Enter a new password into the Password field.

Remember to use the new password you have just entered the next time you are prompted.
