Changing the default administration password
(NB6PLUS4W Rev 2)
Changing the default administration page password

Changing the default password *(and username)* allows you to prevent unauthorised access to the administration page of your modem / router / VOIP ATA.

- Technical Support are unable to obtain your username and password.
- If you forget your administration page login details, you will need to perform a factory reset to restore the default username and password of *admin*.
- This will also clear any stored settings on your modem / router / VOIP ATA.

* - If supported by your model of modem / router.
**Changing the default password**

This guide will take you through the process of changing the password required to login to the administration page of your modem / router / VOIP ATA.

1. Open your web browser and go to the address [http://192.168.1.1](http://192.168.1.1), using **admin** as the username and password.

2. Click on “Management” from the menu at the top of the page.

3. Click on **“Management Accounts”** from the menu on the lefthandside of the page.

4. Enter the password you would like to use into the “**New Password:**” and “**Confirm New Password:**” sections

   (if you would also like to change the username, replace “**admin**” with your chosen username)

5. Click “**Apply**”.

You will then be prompted to re-login to the administration page. Remember to use the new password (and username if you changed it) you have just entered.
