Register the DECT Handset

DECT handsets can be registered with the router to enable them to utilise the configured VoIP service. To do this:

1. Press the **DECT** button on the side of the router. The **DECT** icon on the front of the router will flash.

2. On the DECT handset, press the **Menu** key located at the top left of the handset keypad.

3. Use the **down** arrow key to navigate to **ADVANCED SET** and press the **Menu** key to select this option.
4. Use the **down** arrow key again to navigate to **REGISTRATION** and press the **Menu** key.

5. Use the **down** arrow key to navigate to **REGIST. BASE** and press the **Menu** key.

6. Press the number **1** key on your handset to select Base station number **1**.

7. The handset prompts you to enter a PIN. Enter **0000** as the PIN and then press the **Menu** key to confirm your entry. The DECT handset will display **HANDSET 1** and is now ready to use.

Repeat the above steps to add any additional DECT handsets.
