Storage Service

The Storage Service options enable you to manage attached USB Storage devices and create accounts to access the data stored on the attached USB device.

Storage Device Info

The storage device info page displays information about the attached USB Storage device.

Log in to the web interface

1. Open a web browser (such as Internet Explorer, Google Chrome or Firefox), type http://192.168.20.1 into the address bar and press enter.

2. At the login screen, type admin into both the User Name and the Password fields and click Log In.
3. Click on the **Advanced Setup** menu at the left of the page and then click the **Storage Service** option.

4. Click the **User Accounts** option from the **Advanced Setup > Storage Service** submenu.

   User accounts are used to restrict access to the attached USB Storage device.

   To delete a User account entry, click the **Remove** checkbox next to the selected account entry and click **Remove**.

   Click **Add** to create a user account.

5. Adding an account allows the creation of specific user accounts with a password to further control access permissions.
6. To add an account, click the **Add** button and then enter the desired **Username** and **Password** for the account.

The username is displayed in an account configuration list.

7. Ensure that the **SAMBA** Service is **Enabled**:
Accessing USB hard drive Connected to NF10WV using a Windows PC

1. Exit out from the NetComm router’s WEB Interface page and open up the “Windows Explorer” and type \\192.168.20.1 on the top address bar.

![Windows Explorer](image1)

**Note** – Windows Explorer is different from the Internet Explorer. You can open a Windows Explorer by opening Computer or Documents.

**Important** – Turn off firewall/antivirus firewall if it has no connection to USB storage through Wireless.

2. When prompted for login details, type the Storage User Account **Username** and **Password**. The example below uses “user1” as the username.

![Login Screen](image2)

3. Once you have **logged in**, you will be able to **view and edit** the contents of the USB storage device.
